

# K2500

YewdaleKestrel® Safety window curtain track

## K2500 Safety window curtain track

### Features:

The K2500 fixed curtain track reduces the risk of ligature and violence, making it ideal for health settings, care homes and detention centers. Designed with safety in mind, it fits flush to the wall, eliminating the risk of its use as a weapon. The premium aluminum track comes as standard in white with rounded end brackets. Pin hex anti-tamper security screws are secured into countersunk fixing holes at 150mm intervals to provide a tight fit to the wall or ceiling. Supplied with 16 anti-ligature gliders per meter for a smooth curtain pull.

The standard installation uses a mixture of heavy-duty and low-weight gliders, creating a release weight of 15kg. 10kg and 20kg release weights are achieved by exclusively using one type of glider. When under an excess load, the curtain separates from the gliders, leaving the track and gliders securely in place. The reduced ligature curtain track is easy to install, wipe clean and requires little maintenance. Curtains are not supplied.

### K2500 Aluminium Safety Curtain Track

inches	mm	No. Gliders
39½	1000	16

196¼	5000	80

### Benefits:

The appropriate curtain release weight can be selected based on the individual setting's requirements. The smooth operation of the anti-ligature gliders ensures ease of use and reduces the

chance of the curtain being pulled down due to heavy manual handling. The gliders stay within the track making the curtain easy to reinstall if removed. There are no large gaps between the gliders keeping the appearance of the curtain consistent. No large plastic parts can be removed from the curtain or the track, reducing the risk of self-harm.

### Options:

Any RAL colour available to order.

Top fix available.

### Specification:

The reduced ligature YewdaleKestrel® K2500 safety window curtain track as manufactured by Yewdale, +44 (0)1268 570900. Manufactured from powder-coated white aluminium, installed using tamper-proof screws and comes as standard with anti-ligature plastic curtain gliders (hooks to be sewn into curtains separately by third-party).

### O+M Guidance

It is an NHS requirement that items suspended on load-release support systems should be maintained and load-tested in accordance with the manufacturer's instructions on an annual basis. The YewdaleKestrel® system's performance remains constant even after repeated use. It is a requirement, however, to carry out a physical inspection and testing of YewdaleKestrel® fittings to identify any possible damage or evidence of tampering and undertake an annual load test. Annual testing should only be carried out by Protects Plus 0345 646 0955.

**YewdaleKestrel® K2500 is the only approved safety window curtain track system to be used with YewdaleKestrel®**

#### Option 1 – Standard

15kg load release with the alternating grey and white gliders

#### Option 2 – Low weight
